# From an expert. For more than one good reason.

With DUSCHOLUX, you've made the right choice. We develop and produce bath and shower solutions for you with reliable Swiss quality. This means that our products exceed your highest expectations when it comes to aesthetics, durability and sustainability – with international success.

For more than 50 years, DUSCHOLUX has been designing bathrooms that are right up to date and fulfil your every desire. No matter whether you want to re-charge your batteries, relax for a while or just use it every day. No matter how big or small your room or how unusual your idea – your request is our only priority.

Finally  
more time  
for myself.

DUSCHOLUX  
CareTec® Pro

# Simply a good feeling. DUSCHOLUX CareTec® Pro.

Economical, environmentally friendly, easy to clean. DUSCHOLUX CareTec® Pro creates tangible added value in the bathroom with innovative technology. The permanently dirt-repellent surface considerably reduces the amount of cleaning required. This saves time and money, protects health and helps the environment.

## Features

- 5-year guarantee on the easy-to-clean effect for CareTec® Pro coated glasses factory fitted
- 10 year warranty against glass corrosion
- Exclusive to DUSCHOLUX shower walls
- Developed in collaboration with a spin-off of the Swiss Research Institute for Materials and Technology EMPA
- Applied directly in the factory with state-of-the-art technology

Included as  
standard with:

- Viva
- Collection
- Air
- Bella Vita

## Unique glass finishing.

### Saves time.

The drip-off effect eliminates the need to dry the glass after showering. Depending on the hardness of the water, cleaning the shower wall with a microfibre cloth every one to two weeks is sufficient.

### Saves on cleaning agents.

DUSCHOLUX CareTec® Pro removes limescale and dirt from the exposed surface. This makes cleaning easy and without the use of limescale removers.

### It's environmentally friendly.

Reduces the amount of chemicals released into the air you breathe and the water cycle. In addition, the reduction in time and effort required for cleaning means water savings that save hundreds of litres of drinking water every year

### It's sustainable.

The surface treatment permanently protects the shower wall from glass corrosion and makes it particularly durable.

**DUSCHOLUX CareTec® Pro. Consistently concentrating on the essentials.**

Video with 1:1 comparison to an uncoated shower wall at  
[www.duscholux.com/caretecpro](http://www.duscholux.com/caretecpro)

The exclusive feel-good oasis, the architectural masterpiece, the small bathroom, guest bathroom or the standard for rental properties. In our product worlds, you'll find the perfect option for every desire, every bathroom layout and every budget. And the special touch is that DUSCHOLUX will make all your ideas a reality.

**Meeting your every demand.**

Your needs are just as unique as your projects. We can provide versatile solutions for all requirements using our modular concept, which is based on the principle of "Good-Better-Best". In this way, a product variant from our basic segment "C" provides the same level of satisfaction as the solution from the mid-range segment or the premium segment "Plus". They only differ in terms of features and price. No matter what variant you opt for: With all DUSCHOLUX products, quality, innovation and easy-of-use are guaranteed.

5 worlds.  
365 days to  
discover them.

# Viva

Refined style icon.  
Brings life to your bathroom.

The Viva product world embodies innovation. Masterful workmanship, clear lines of sight and invisible functional ity speak for themselves. When paired with your flair for first-class bathroom design, you give this shower wall its own special personality. Viva represents class in its purest form.

# Viva Sliding door

Variable profile and creative freedom.

The Viva sliding door fits into your room particularly well thanks to its innovative guide profile. Glass or stone-effect PanElle can also be integrated into the profile to add that special touch. This is how the right PanElle rear wall can really bring together the overall look. Rich in contrast or understated – combine all the benefits of a modern sliding-door shower wall with a surprising level of creative freedom.

Features

- Reduced-frame shower wall with 8 mm glass thickness
- Colours Silver Matt and Platinum Silver Glossy
- Including DUSCHOLUX CareTec® Pro glass finishing
- Guide profile can be customised with glass, wood or stone optics PanElle
- Slim magnetic closure made of aluminium
- Soft-close function for smooth opening and closing
- Push & Clean function for easy cleaning
- Shower wall height up to 2500 mm

Viva

**01** With the new Viva and PanElle Stone, the shower wall blends into the rear wall – and creates an exciting overall concept.

**02** The PanElle surface is skilfully integrated into the guide profile – whether you go for glass or stone.

**03** Special solutions for particular rooms: with Viva, the planning remains flexible from the beginning.

01

With no wall profiles, Viva impresses with its high level of transparency and virtually unliwithed possibilities – even in made to measure dimensions.

02

The hidden functions are a guarantee of comfort with Viva: the narrow top profile with concealed roller guide and the Soft close function for gentle opening and closing. Type of glass: 821 Terra with CareTec® Pro.

# Individuality lies in the details.

The new Viva shows you how.

Without a wall profile and with a concealed roller guide in the minimalistic top profile, DUSCHOLUX Viva is reduced to the bare essentials: a partially framed shower wall that enhances every bathroom with its transparent effect. The new freedom offered by the profile designs gives you a unique interior design with a personal touch.

# New possibilities

For even more creative freedom.

This is proven by the new real wood decors. Wood is popular and in high demand in interior design. For the bathtub, the room height version creates further scope. Where the installation previously required careful drilling into the tiles, today a shower wall is cleanly and silently bonded with the application surface. This is thanks to the latest adhesive technology.

01

- 01** Real wood decorative inlays in 244 Oak, 276 Wild White Oak and 277 Walnut
- 02** The narrow top profile integrates perfectly into the natural living atmosphere thanks to new real wood decorative inlays in oak.
- 03** The Viva sliding door is also available in a room height version for the bathtub.
- 04** Viva sliding door attached with bonding technology.

# Viva Swing door

Colourful accents in unison with the rear wall.

For those who prefer elegant swing doors, our new Viva shower wall offers plenty of room for individuality. You can even pair the glass-effect surface of the hinges with the matching PanElle rear wall. In addition to the popular Chrome Glossy variant, there is also a choice of White Glossy, Black Glossy, Black Matt and Stainless Steel Finish. Those who prefer a more natural look can choose from three real wood decorative inlays. With Viva, anything is possible!

### Features

- Frameless shower wall with 8 mm glass thickness
- Fitting colours of Chrome Glossy, White Glossy, Black Glossy, Black Matt and Stainless Steel Finish
- DUSCHOLUX CareTec® Proglass finishing included
- Fittings with PanElle in glass look and customisable with real wood decorative inlay
- Internally flush surfaces for easy cleaning
- Swing doors open inwards and outwards
- Slim magnetic closure made of aluminium
- Lift-and-lower mechanism for easy opening and closing
- Optional wall profiles for an extended adjustment range
- Shower wall height up to 2200 mm

### 01

The slim and extremely flat hinge is flush on the inside and particularly easy to clean – with a practical lift-and-lower mechanism as standard.

### 02

Individuality down to the last detail: hinges and handles are also available in glass-effect PanElle.

### 03

Viva means freedom – with colours and installation versions too.

New, better, Viva: The Viva swing door is the perfect blend of design, functionality and individuality. Add your own specific personal style to your bathroom using striking touches of colour and visual elegance. DUSCHOLUX CareTec® Pro glass finishing is included in the price. This is where functionality meets innovation. Making the Viva swing door a genuine style icon by way of attractive design.

- 01**  
The swing door that opens both inwards and outwards guarantees flexible access. Installed here with a wall connection profile.
- 02**  
A new addition to the colour range: Black fittings and handles, providing even more design possibilities.
- 03**  
PanElle can be integrated into the profile and glass holder as a feature. For example, in Basalt Grey.
- 04**  
The optional, narrow wall profile provides an additional range of adjustment as compensation for wall angles.

Walk-in solution with 8 mm glass thickness

With the Viva Walk-in, a bonded Walk-in solution with 8 mm glass is now also available – in different versions and widths too.

**01**  
Bonded Viva Walk-in solution with cross-bar and 8 mm glass thickness.

**02**  
Inward-opening and outward-opening swing door with real wood decorative inlay in walnut and the new glass type 821 Terra with CareTec® Pro

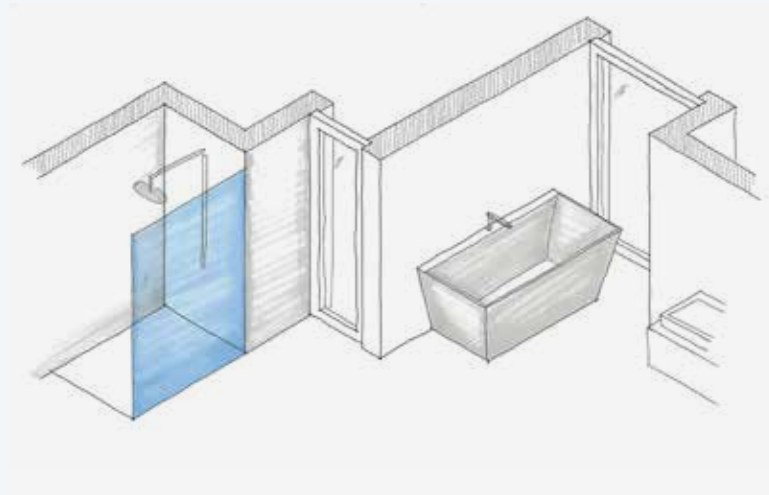

**03**  
A wide range of possible combinations. For example, Black Matt in combination with Stainless Steel Finish.

**04**  
The new real wood decorative inlays are available as an option for both sliding and swing doors and are included in the basic price.

# Before – the wish. After – the dream bathroom.

At the start of the story of a new bathroom there is an idea, a need, a vision. Whatever the reason, we'll finish the story together with you. We're happy to help you with reliable expertise, an efficient process, countless special solutions and our own installation team. After all, we want to know that your dream has become a reality.

# Collection

The one and only.  
As flexible as you need.

The frameless product world Collection focuses on what's important: exceptional convenience, a simple look and no effort. Tailor-made frameless shower walls give you a unique shower experience in any room layout. With almost limitless possibilities for installation and refined details, Collection lets your creativity run wild. Lacking in profile? Collection is anything but that.

**01**  
Collection 3 is also a visual highlight as a corner entry solution featuring the Carbon glass variant.

**02**  
As standard, the striking handle is supplied in Chrome Glossy and is flush with the inside for easy cleaning.

**03**  
Collection 3 simplifies versatile solutions. Shown here as a niche solution with swing door and side panel in Front and a shower floor Fjord in Black Galaxy.

# Collection 3C Swing door

Transparency without profiles.

The Collection 3C frameless shower wall leaves plenty of scope for individual design. This is because the profile-free glass surfaces provide elegant transparency that can enhance any room. The inside surfaces are flush, making Collection 3C particularly easy to clean.

**Collection 3C features**

- Frameless shower wall with 8 mm glass thickness
- Fitting colour Chrome
- Including DUSCHOLUX CareTec® Pro glass finishing
- Screw-in flush fittings
- Swing doors open inwards and outwards
- Selection of handles and crossbars
- Slim magnetic closure made of aluminium
- Lift-and-lower mechanism for easy opening and closing
- Shower wall height up to 2200 mm
- Screwed flush fittings
- Additional installation options thanks to new glass-glass hinge

01

Excellent design, attractive price.

Finished with DUSCHOLUX CareTec® Pro and a smooth internal design, Collection 3C is particularly easy to clean. The hinges are screw-fastened, offer various adjustment options and additional designs and can also be used for mirrored glass. DUSCHOLUX now offers the elegant Collection look in an even wider range – so that no wish is left unfulfilled.

04

02

03

**01**  
When it comes to installation and fitting, almost anything is possible: custom sizes, bevels and glass cut-outs make this range work for every room layout.

**02**  
The new glass-to-glass hinge of Collection 3C rounds off the installation options.

**03**  
Small detail, big impact: the smooth internal screw-fixed hinges combined with the DUSCHOLUX CareTec® Pro glass finishing make Collection 3C particularly easy to clean.

05

**04**  
With the glass-glass hinge, Collection 3C offers new installation options. Collection 3C impresses with its aesthetically pleasing appearance and is easy to clean thanks to its flush inner surfaces.

**05**  
A shower with integrated bench for sitting? A custom cut-out makes even the most unusual ideas possible.

# Collection 3C Sliding door

Aesthetically pleasing and elegant.

As a transparent shower wall with sliding doors, Collection 3 stands out due to its ability to be adapted to the specific room layout. Whether in niches, as a corner installation, or Walk-in variant, the frameless solution comes without an upper guide profile, giving a light, well-lit look and feel. The sleek, lateral wall profiles in Platinum Silver emphasise the transparent design and provide modern visual highlights.

Collection 3C features

- Frameless shower wall with 8 mm glass thickness
- Profile colours Platinum Silver Glossy, Silver Matt and Black Matt
- Including DUSCHOLUX CareTec® Pro glass finishing
- Slim magnetic closure made of aluminium
- Shower wall height up to 2100 mm

- 01**  
Collection 3C with side panel: a stable and spacious solution that is bathed in light, for straightforward installation situations. Also available in non-standard dimensions.
- 02**  
The Walk-in version in Black can be shoved together in order to save space.
- 03**  
Roller guide at the top with Platinum Silver Glossy design.
- 04**  
Minimalistic, transparent design: Handle matches the Black Matt profile colour.
- 05**  
Niche installation in Black Matt profile colour as a transparent sliding door solution.

**01**  
Plenty of space under a sloped ceiling – Collection 2, shown here with oval hinges and fittings. It also fits in unusual room layout.

**02**  
The structural aesthetics of the corner variant are clear and striking.

**03**  
The matching hinges and handles have a uniform design and a discrete style.

**04**  
Collection 2 as corner installation with swing door and side panel. The integrated lift-and-lower mechanism makes it easy to open and close the door.

## Collection 2

Classical design with a wide range of variants.

Collection 2 stands out due to its clear and harmonious structural aesthetics. With its wide range of variants, this DUSCHOLUX shower wall can be installed in a virtually unlimited number of different ways. With the exquisite, traditional look of the handles and hinges, you will always be making the right choice.

### Features

- Frameless shower wall
- Glass thickness 8 mm (fixed parts), 6 mm (door parts)
- Fitting colours Platinum Silver Glossy and Chrome Matt
- Swing doors open inwards and outwards
- Lift-and-lower mechanism for easy opening and closing
- Fittings and handles rectangular or oval
- Shower wall height up to 2100 mm

Saving space for the bathtub.

Collection 2 is a shower wall that can swing out against the wall to save space. As a frameless, one to three-leaf panel overbath screen, it meets the highest design requirements.

Features

- One- to three-panelled folding shower wall for the bathtub
- Shower wall as a Walk-in solution with wall crossbar or ceiling support
- Fitting colours Platinum Silver Glossy and Chrome Matt
- 360° hinge for a wide range of movement
- Fittings corner or oval
- Height up to 1800 mm for the bathtub and up to 2100 mm as a shower wall

01

Two-piece Collection 2 with rectangular 360° hinges. The hinges allow the door elements to swing inwards or outwards with ease.

Walk-in with no limits

Free-standing shower panels with spacious access, free of any obstacles, enhance any modern bathroom. The Collection 2 offers limitless showering pleasure in arbitrary shapes and sizes – fastened with ceiling support or wall crossbar to suit the room configuration.

# Many faces. One clear profile.

People from all over the world are behind the DUSCHOLUX brand – as multi-talented and exceptionally qualified individuals, they all help to ensure that our bath and shower solutions not only meet your highest requirements, but exceed them too. That's what we call adding value.

**„The best praise is  
a satisfied customer.  
That doesn't take many  
words.“**

**„What I do here is seen  
and appreciated. That's  
why I like going to work,  
even on a Monday.“**

# Air

Transparent trendsetter.  
More room for ideas.

The frameless product world Air pays homage to true freedom of design and a sensuality that creates a great deal of personality from this minimalist style. The free-standing shower walls work particularly well in spacious and accessible Walk-in solutions. The large number of colour options enables you to choose freely between a carefully understated style and a sophisticated highlight. There's more than love in the Air!

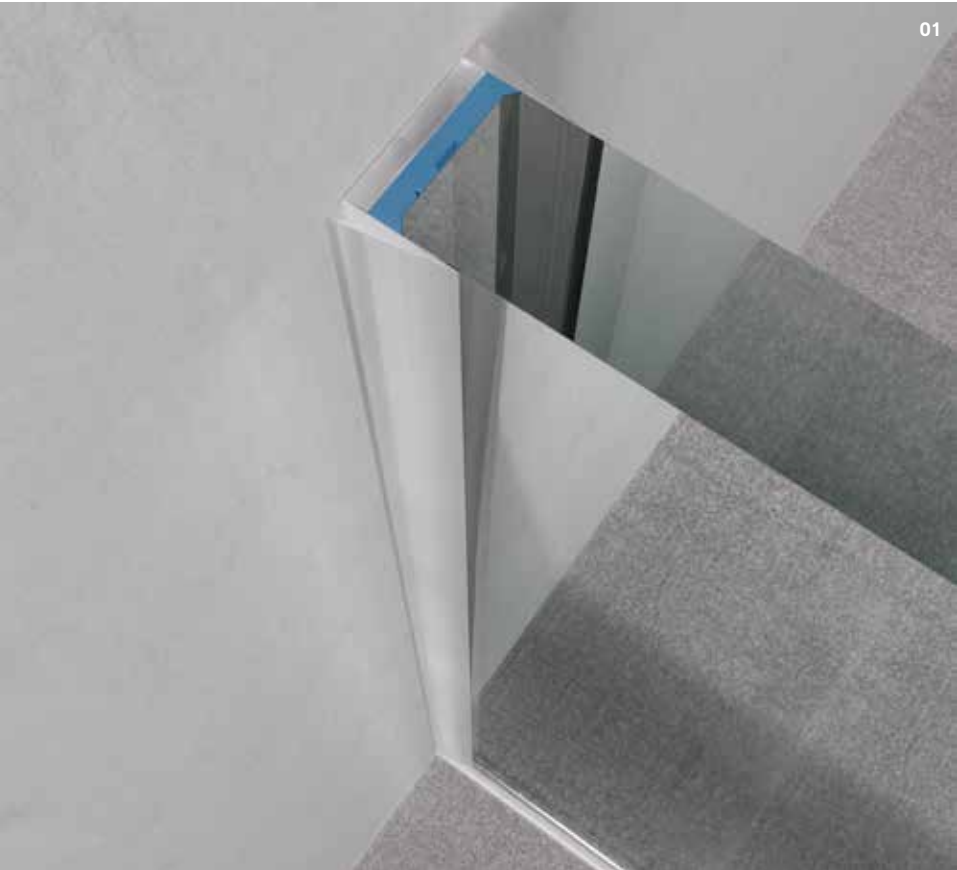

# Air 3

Maximum transparency.

No drilling or screws. Our glued Walk-in variant, the Air 3, is mounted on the wall using a concealed glass anchor. Only a few, sophisticated components are required to ensure the highest possible level of transparency and a straightforward assembly process in only a single step. A discrete, coloured silicone joint along the floor-wall interfaces suffices.

Features

- Frameless shower wall with 10 mm glass thickness
- Spacious walk-in solution
- Suitable for mounting on tiles and PanElle wall panelling
- Including DUSCHOLUX CareTec® Pro glass finishing
- Profile-free for maximum transparency
- Safety thanks to concealed glass anchor
- Shower wall height up to 2200 mm

**01**  
Not a profile in sight, yet a secure hold is guaranteed by glass anchors.

**02**  
Absolute facility in the absence of profiles. The free-standing 10 mm glass is available in different colours of glass.

## Air 2

Free-standing and unique.

With no visible profiles, Air 2 offers a pure, clear appearance for modern bathroom architecture. Glass heights up to 2200 mm, custom sizes and different glass designs leave plenty of room for individuality.

- Air 2 features**
- Frameless shower wall with 10 mm glass thickness
  - Colours Silver Matt, Silver Glossy, Stainless Steel Finish and Black
  - Wall profile also available in a flush-mounted version
  - Including DUSCHOLUX CareTec® Pro glass finishing
  - Four new eye-catching glass colours
  - Suitable for both tiled shower floors and shower walls
  - Shower wall height up to 2200 mm

**01**  
An interesting accent in modern bathroom architecture: Air 2 in Polar glass with satin finish which fades as it rises.

**02**  
Barely visible profiles with Air 2. Available as a surface-mounted or flush-mounted solution.

**03**  
Also available as a room height version for bath tubs.

# Overview

## Walk-in solutions

Shower walls

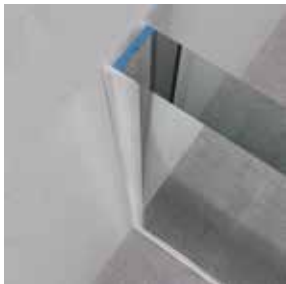

### Invisible, mechanical fixing

**Flush-mounted wall profile.** This solution with tab for tiling offers an invisible, mechanical fixing. This allows installation directly on the wall edge, for example.

### Invisible, non-mechanical fixing

**Glued with glass anchors.** Instead of mechanical fixing, the glass is safeguarded on the wall as well as on the surface by means of a concealed glass anchor and silicone joints in a choice of colours. This has the advantage that neither drilling nor screwing is necessary.

### Visible, mechanical fixing

**Surface-mounted wall profile.** The glass is firmly connected to the wall by means of an attractive wall profile. Installation directly on the wall edge is not possible with this solution.

**Surface-mounted wall bracket.** Elegant alternative to fixing with a profile. In contrast to the wall profile, a large part of the glass edge remains visible with this solution and the design becomes lighter.

**Floor rail.** to the surface-mounted wall profile, the lower glass edge is also mechanically fixed by means of a profile.

# Bathroom manufacture division. Made just for you.

We're happy to get hands on in our DUSCHOLUX bathroom manufacture division, handling unusual requests and architectural visions. This is where we produce room dividers, doors or personalised decoration to match your ideas and measurements. We particularly demonstrate our planning and craftsmanship skills when manufacturing easy-to-clean glass doors and roomheight partitions.

By the way, special service is included in all bathroom manufacture orders – our DUSCHOLUX bathroom manufacture team will provide you with personal support from design to installation to help you implement property solutions. You will also be able to rely on over 50 years of DUSCHOLUX experience.

# Bella Vita

Bestseller with style.  
And meaning for life.

The reduced-frame product world Bella Vita gives you the freedom to implement any design idea. With a wide variety of versions, well-thought-out functions, spacious dimensions and high-quality materials. The various door and glass options give a small bathroom just as much class as a large one – with a masterfully understated look. Bella Vita makes life particularly beautiful.

01

Big in small niches too: Bella Vita 3 can be easily integrated anywhere to save space.

02

A nice touch: the aesthetic profiles in a variety of colours cover all screw connections and mountings. Here in Black Matt and Stainless Steel Finish.

03

Bella Vita 3 Plus offers ceiling-height solutions, even with Partial Fine Satin glass.

# Bella Vita 3 Sliding door

Transparent with a touch of colour.

Winner of the iF product design award, Bella Vita has been setting standards in functionality and adaptability for many years. This is why we are constantly developing this product world further. As a further development, with Bella Vita 3 Plus DUSCHOLUX offers you additional room height solutions that will win people over with a more transparent design without wall profiles.

**Bella Vita 3 features**

- Reduced-frame shower wall
- Glass thickness 6 mm
- Profile colours Silver Matt, Silver Glossy, Black Matt and Stainless Steel Finish
- DUSCHOLUX CareTec® Pro glass finishing included
- Slim magnetic closure made of aluminium
- Soft close function for smooth opening and closing
- Push & Clean function for easy cleaning
- Shower wall height up to 2100 mm

**Bella Vita 3 Plus added value**

- Glass thickness 8 mm (stationary parts), 6 mm (door parts)
- No wall profile for an even more transparent design
- Floor-to-ceiling version available

## Smooth-running with aesthetically pleasing profiles.

No matter whether you opt for the linear or round version: The innovative glass guidance on large rollers, optional self-closing with soft-close effect and the high-quality materials ensure quiet running. The aesthetically pleasing profiles are particularly eye-catching. They cover all fittings and hangers and are also available in the trendy colours Black Matt and Stainless Steel Finish.

### 01

Bella Vita 3 Plus stands out due to its aesthetic, transparent design achieved by forgoing wall profiles.

### 02

The sliding doors can be cleaned effortlessly using the practical Push & Clean function. The sliding doors can be pivoted outwards by pressing on them gently from the outside.

### 03

The glass hangers are integrated into the profile. When the Bella Vita 3 Plus is installed in a corner, the Chrome cover cap becomes an eye-catching highlight.

### 04

As a quarter circle shower with wall profiles, the Bella Vita 3 Round shows its adaptability. Optimum use of space with a timeless design.

A distinct advantage.

With the transparent splash guard, a tub can be quickly transformed into a spacious shower. This is made particularly appealing by the smooth-running sliding doors of Bella Vita 3. Two or four-panelled variants are available. Bella Vita also features a wide range of Walk-in solutions. The two-panelled sliding doors are functionally superior to the traditional Walk-in versions.

- 01**  
Bella Vita 3 with single-piece sliding element in combination with side panel. The striking design shown here is the Black Matt variant.
- 02**  
The glass panel of the single-panelled sliding door is freely moveable with Bella Vita 3. This means that the fixtures are easily accessible and can be cleaned effortlessly.
- 03**  
Where screws used to be used, the wall profile can now also be glued.

# Bella Vita 3 Swing and pivot folding door

Spacious or space-saving.

Every bathroom is different. That is why the Bella Vita 3 range offers additional door models for individual room requirements. Swing doors in numerous sizes and installation variants enable comfortable access to the shower area. Pivot folding doors are space-saving alternatives that still provide a large entry area.

Features

- Reduced-frame shower wall with 6 mm glass thickness
- Profile colours Silver Matt and Platinum Silver Glossy
- DUSCHOLUX CareTec® Pro glass finishing included
- Slim magnetic closure made of aluminium
- Lift-and-lower mechanism for easy opening and closing
- Shower wall height up to 2000 mm

- 01

The perfect niche solution: Bella Vita 3 swing door, flexible in terms of width and height.
- 02

The swing door with side panel and the Fjord shower floor provides convenient access. The fixed panel with the Mirror glass design is a splash guard and full-body mirror in one.
- 03

Swing doors as corner entry with fixed panels. Easy to open and close thanks to the integrated lift-and-lower mechanism.

Generous entry.

Whenever a large amount of space needs to be won, Bella Vita 3's pivot folding doors are used. They provide a particularly generous entryway and can be folded completely against the wall. The new bow-shaped handle mounted horizontally facilitates easy control of the glass leaves.

01

02

**01**  
As a pivot folding door with Silver Glossy profile and with bow handle in a horizontal position. Convenient use guaranteed. A miracle for small niches with optimum utilisation of space.

**02**  
Corner entry with pivot folding door as a transparent solution. The doors fold open against the wall providing you with the greatest possible amount of entry space.

# Bella Vita C Sliding door

Linear and discrete.

Our shower wall Bella Vita C with sliding doors wins over customers with its linear design. Its panes of glass open outwards, making them easier to clean. Bella Vita C features invisible fittings and is versatile in terms of its use and installation options.

Features

- Reduced-frame shower wall with 6 mm glass thickness
- Profile colours Silver Matt, Silver Silk Matt, Black Matt and White Matt
- Shower wall height 2000 mm

- 01** Sliding door in niche. Partial Fine Satin glass offers a greater degree of privacy.
- 02** Corner entry: The door elements can be opened outwards to facilitate cleaning.
- 03** Wall connection with smooth-running rollers in the upper profile. In Platinum Silver in this case. Here in Black Matt.
- 04** Round handle with discrete design.

# Gluing instead of drilling

Put an end to drilling damage such as splintered tiles or faulty seals: Our adhesive technology allows assembly without dirt and noise. Already used in other industries for a long time, this technology is now also finding its way into the sanitary sector. Whether glass on glass, crossbars or profiles – gluing is the alternative to drilling and screwing for all walls that are friction-resistant, load-bearing, dimensionally stable and free of adhesion-reducing substances.

Features

- Wall mounting without dirt and noise
- No time-consuming drilling on hard wall tiles - no risk of cracking.
- No damage to seals (DIN 18534)
- Ideal for rented flats or renovations during ongoing operation
- Rapid completion thanks to short drying time
- Suitable for example for assembly on tiles and PanElle wall panelling

The adhesive technology for wall profiles and crossbars is available for the following shower walls:

- Viva Sliding door
- Collection 3C Swing door
- Collection 2 Swing door
- Bella Vita 3 Plus Sliding door
- Bella Vita 3 Sliding door
- Bella Vita 3 Swing and pivot folding door
- Allegra 2 swing, pivot and pivot folding door
- Allegra Plus Sliding door

Adhesive technology

01

Where screws used to be used, the wall profile is now glued.

02

Crossbars can now simply be glued. This noticeably simplifies overhead assembly.

03

Viva sliding door attached with bonding technology.

04

Glued wall mounting for the Bella Vita 3 sliding door.

# Allegra

Linear classic.  
A welcome addition to any bathroom.

If you prefer to see the big picture, welcome to the Allegra product world. The entry-level series fits perfectly in any situation while staying discreetly in the background. The framed shower walls can be installed in a flash, so they pay for themselves, especially if you're building a property. Allegra – the classic for your bathroom.

# Allegra Sliding door

Comfortable and expressive.

Our new Allegra Plus with two-panelled sliding doors combines all the strengths of a classic with a modern, lighter look, since the innovative seal means that the overlapping of the glass is barely visible. This creates more transparency – and requires less of a profile. The simple swing out mechanism makes cleaning much easier.

**Allegra features**

- Framed shower wall with 4 mm glass thickness
- Colour Silver Matt
- Two- and three-panelled sliding doors
- Doors open outwards for easy cleaning
- Shower wall height 1900 mm

**Allegra C difference**

- Framed shower wall with 5 mm glass thickness
- Shower wall height up to 2100 mm

**Allegra Plus added value**

- 5 mm glass thickness
- Narrow, virtually transparent seals
- Shower wall height up to 2000 mm

**01**

The slim, transparent seals between the door and the fixed panel guarantee reliable splash protection without glass overlapping.

**02**

Allegra Plus doors swing inwards, making cleaning and maintenance much easier.

**03**

The two-panelled sliding door offers various design options: as corner entry, in niche designs or with an additional side panel.

**01**

As a three-piece sliding door, Allegra provides convenient and safe entry into the niche.

**02**

The unhinging mechanism facilitates cleaning.

**03**

Large corner entry thanks to sliding doors that open on both sides.

## The smart solution.

Allegra sliding doors with two or three sliding elements are particularly smooth and safe. The connecting elements are the handle bars integrated into the vertical profiles for convenient opening and closing. The smart opening mechanism in the smooth glass surfaces ensures that the cleaning process is straightforward.

Functional and reliable.

The partly framed Allegra C offers corner entry and niche solutions. Expressive profiles emphasise the linear design. The round, Chrome handle provides a deliberate visual contrast. The unhinging mechanism simplifies cleaning and maintenance processes.

- 01** With its corner entry or niche options, Allegra C is highly suitable for daily use.
- 02** The straightforward unhinging mechanism makes the shower easier to clean.
- 03** The round, Chrome handle provides an appealing visual contrast to the Silver Matt profiles.
- 04** Niche solution with transparent appearance thanks to barely visible seal between door and fixed panel.

# Allegra 2 Swing door

Slim and versatile.

When designing the bathroom area, transparency and lightness are increasingly in the foreground. That is why we have further optimised the predecessor swing and pivot folding door. The result: A significant reduction in profile mass and even more flexibility during assembly. This is achieved by optimising the compensation of the slopes within the wall profile. Three attractive profile colours are available for you to choose from: Silver Matt, Silver Glossy, Black Matt can be combined with the two noble hinge colours Chrome Glossy and Black Matt.

Features

- Partly framed shower wall
- Glass thickness 6 mm
- Profile colours Silver Matt, Silver Glossy and Black Matt
- Lift-and-lower mechanism for easy opening and closing
- Width/bevel adjustment possible between 20 and 40 mm, depending on model
- Shower panel height up to 2100 mm
- Optional set for glued wall mounting available

01

A wide range of options for flexible designs. The new Allegra 2 swing door is available in numerous sizes and installation variants.

02

A welcome sight. A swing door as niche shoring in Silver Matt.

03

The bow handle is also available in Black Matt.

03

Filigree and yet flexible.

Thanks to slim aluminium profiles with an adjustment range of 20-40 mm, Allegra 2 offers more transparency in the bathroom and flexibility during assembly. Give your bathroom your own personal style with different profile colour accents. In addition to the standard sizes, we also offer custom-made products, of course. The Allegra 2 is available as a swing door as well as a pivot folding door.

01

**01** Conveniently, the two-panelled pivot folding door folds open against the wall as necessary. As an option, the partially satinised glass provides the necessary privacy.

**02** Symmetrical in appearance and generous at the entrance. The swing door as corner shoring comes up trumps with plenty of space.

02

Allegra

Space-saving and practical.

For the bathtub or shower area in a small bathroom. The new Allegra 2 pivot folding door fits into even the smallest corner or niche. Thanks to collapsible glass leaves, the Allegra 2 pivot folding door can be placed almost flush against walls, giving you more freedom of movement.

**01**  
Pivot folding door on bathtub.

**02**  
Despite its narrow dimensions, the wall profile offers a practical adjustment range for even more flexibility during installation.

**03**  
Conveniently, the 2-panelled pivot folding door folds open against the wall as necessary.

**01**  
Allegra Walk-in with black grid decor and a narrow wall profile with equalising function. Combined with the Savona shower floor in this case.

**02**  
The Walk-in solution impresses with its floor-level access, White profile and White crossbar. The discrete clear glass pane remains in the background.

Walk-in re-imagined.

In addition to the numerous existing installation variants and door designs, DUSCHOLUX also has a range of new Walk-in solutions. From two geometric designs in Black to a transparent clear glass solution with coloured profiles in Silver, Black or White Matt.

01

The self-supporting complete shower, Allegra C, provides everything you need for a wonderful showering experience in a single product.

02

Would you prefer the curved version? Then order the round variant of Allegra C. Ticks all boxes, installed in a flash.

# Allegra C

## Complete shower system

Ready to be installed.

Showering in untiled spaces? With Allegra C, it's a clean affair. The complete shower can be set up swiftly on site so it is ready to be installed – with all of the functions you require and without any time-consuming conversion work. Because the self-supporting solution has a non-slip, easy-clean shower floor, an all-round enclosed shower cabin made of glass and height-adjustable fittings pole and practical shelf. Straightforward and great value for money.

### Features

- Complete shower system
- Colour Silver Matt
- Rear walls made of Fine Satin
- Round or rectangular version
- Sliding doors can be swing inwards for easy cleaning
- Can be installed anywhere: only water connection and drain needed
- Total height 2080 mm

02

# PanElle

Straightforward alternative.  
For a new atmosphere in the bathroom.

A completely new atmosphere in the bathroom, with absolutely no dirt, dust and laborious renovation work? No problem! With the ingenious PanElle wall panelling system, DUSCHOLUX offers a simple alternative that will give your bathroom a makeover without having to go through a full renovation. PanElle wall panelling panels are available in many colours and patterns or with personal photographic motifs. They are simply installed over the top of the existing base and can be easily adapted to the existing architecture thanks to the modular system. This is quick to install, impresses with its modern design and provides an astonishing new atmosphere.

# PanElle Wall panelling

From outdated to astonishing.

Want to turn an outdated bathroom into a wellness oasis in no time at all without any laborious conversion work? And without noise, dirt and dust? It's never been so simple – with PanElle. PanElle wall panelling is available in various attractive colours, patterns and layouts. It can be adapted to the surroundings wonderfully well and, thanks to the joint-free assembly process, is incredibly easy to clean.

**Features**

- Wall panelling made of rigid foam panels with acrylic coating
- Panel thickness 6 mm or 11 mm
- 13 individual colours, 8 graphic samples, 5 design samples, 6 haptic samples and 4 natural stone tiles
- 195 RAL colours or personalised designs available using the photo printing process
- Joint, profile or invisible PanElle Click connections
- 100% moisture-resistant
- Scratch-resistant, impact-resistant, light-resistant
- Easy cleaning thanks to fewer joints
- Panel size up to 1500 x 2500 mm

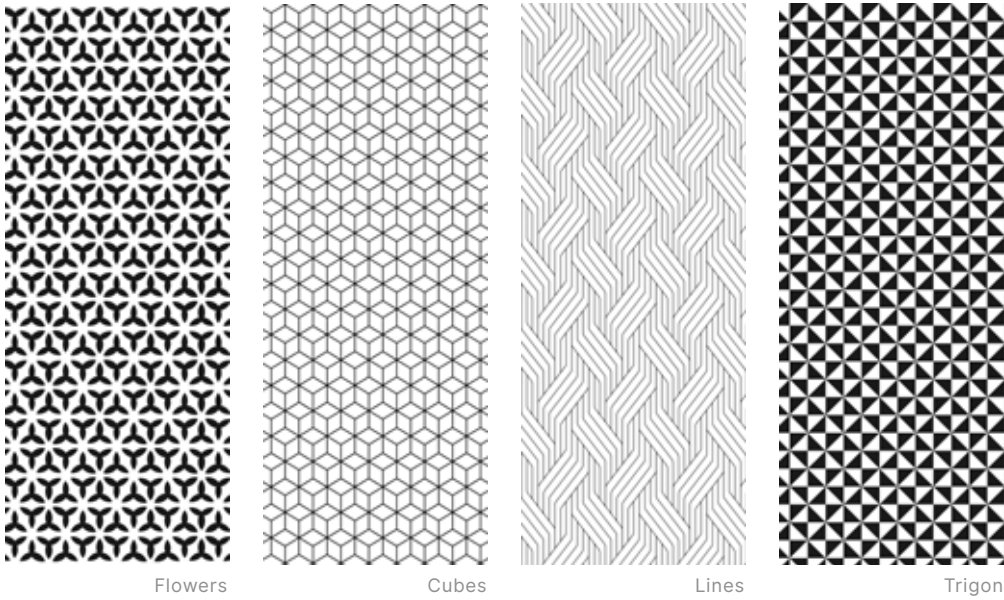

# PanElle Graphics

New patterns set trends in the bathroom.

In modern bathrooms, the emphasis is on individuality. That is why DUS-CHOLUX has added PanElle Graphics to the PanElle wall panelling. They are inspired by hip architectural trends and sets new accents in bathroom design. This is how you achieve individual and amazing effects.

**01**  
The gold-tone, dynamic patterns soften the space and contribute to a sublime style.

# PanElle Designs

Latest bathroom prints.

The PanElle family designs follow the trend for bold floral patterns and animal prints. The Palm, Blossom, Leafs, Sea Life and Andalus motifs bring nature and a Mediterranean feeling into your bathroom.

PanElle

**01** Natural motifs are in vogue. PanElle Design Palm takes up this trend and brings an exotic touch to the bathroom environment.

Palm

Blossom

Leafs

Sea Life

Andalus

01

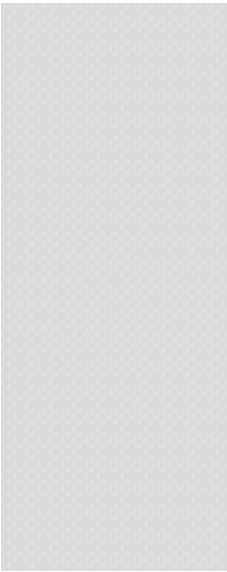

**01**  
Notice the difference. PanElle Haptics  
White Diamonds opens up a new,  
tactile dimension of experience.

# PanElle Haptics

Feel the difference.

The new PanElles not only look good, they are also convincing to the touch: PanElle Haptics plays with interesting surface structures and thus creates surprising haptic stimuli. You can find a sample at your DUSCHOLUX partner. Feel the difference for yourself.

White Diamonds

# PanElle Stone

Elegant look with genuine natural stone.

PanElle Stone is a unique combination of genuine natural stone and the proven PanElle wall panelling system. The stone is applied onto the backing layer in a thickness of 2-4 mm. With various types of slate, PanElle Stone impresses with the look and feel of a natural product, which can be easily machined and has a very low dead weight. As with real stone, each tile is an original and offers a different effect.

**PanElle Stone**  
Looks like real stone, but is PanElle wall panelling: available in the colours Earth, Graphite, Volcano and Quartz, PanElle Stone is an interesting alternative to heavy natural slabs.

- 01**  
With PanElle Click, the tiles merge into one another almost invisibly. The waterproof connection is particularly suitable for the new, large-scale patterns.
- 02**  
The new connection for wall panelling with a thickness of 11 mm is a revolutionary alternative to buffer profiles and silicone joints.

## PanElle Click – Invisible and revolutionary.

We have extended our PanElle wall panelling range with a practical connection solution that has a panel thickness of 11 mm: PanElle Click is particularly easy to install and ensures a homogeneous, almost invisible transition. That is why the system is perfectly suited to large-scale patterns and photo prints as an alternative to buffer profiles and silicone joints. You can position PanElle Click precisely and without offset – visually seamless and waterproof.

225 Dark Grey Metallic

# PanElle Individual

Anything is possible.

PanElle is available in thirteen individual colours. In addition, you can choose from 195 RAL colours to create customised solutions. With such a huge range of options, it is possible to turn any room into a unique wellness bathroom with an individual touch. From the classy, traditional look right through to a trendy, modern appearance.

White Glossy	Pergamon	Cappuccino	Taupe Metallic	Burnt Orange	Mint	
Grey	Medium Grey	Basalt Grey	Dark Grey Metallic	Stone Blue	Blue Grey	Deep Blue

# PanElle Photo printing

Boundless character.

Images selected from an image database or your own high-resolution photo motifs used as a large-scale wall design can turn rooms into unique bathing landscapes. They are simply printed onto PanElle panels using a glass effect. They can also be illuminated as an Enlight version on request and then mounted. So, if you’ve ever wanted to shower above the rooftops of New York City, you need only step into your bathroom.

## Enlight – illuminating perspectives.

With an illuminated Enlight photo motif, PanElle can have a quite incredible impact on your bathroom. Niche and Walk-in showers in particular benefit from the thrilling lighting conditions that are created in combination with your images. The wall panelling system also gives the space a particular atmosphere when it is used to provide a touch of colour. The decisive advantage: As they have no joints, PanElle panels are a lot more hygienic than tiles.

# PanElle WC-panelling

Elegantly packaged.

Using design panelling for toilet modules, it is possible to use PanElle to convert a conventional standalone toilet into an easy-to-clean wall-mounted toilet quickly and easily. The pre-fabricated panelling, which is available in four noble standard colours, is modified on site. The surface, which is free of joints and very easy to clean, makes the panelling particularly impressive. In no time at all and with very little effort, your toilet will be turned into a hygienic eye-catcher.

Features

- Designer panelling for WC units from Tece and Geberit
- Four colours available in stock
- For fast transformation from a free-standing to a wall-mounted WC
- Height adjustment on site – delivered with length to spare
- Additional PanElle Objects colours available for custom-made orders and made to measure

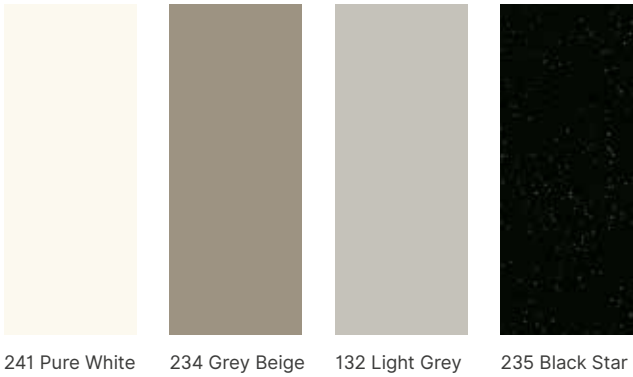

01

The PanElle panelling for the Tece module, shown in Grey Beige here, is available in four different colours. Other colours and made-to-measure panels can be custom-made on request.

02

Swift conversion from standalone toilet to wall-mounted toilet. Also with the panelling in the colour Black Star for the toilet module Duofix by Geberit.

241 Pure White    234 Grey Beige    132 Light Grey    235 Black Star

# Shower floors

Sure footing on level ground.  
Impressively hygienic and elegant.

Modern bathrooms are open, inviting and bright. Floor-level showers are enjoying great popularity: Without a threshold, they are also safe and convenient for older people. DUSCHOLUX has a full range of floor-level shower floors. They offer a significant advantage in comparison to tiled floors: They have no joints and thanks to their smooth, yet non-slip, surface, are easy to clean.

Shower floors

# Savona Shower floor

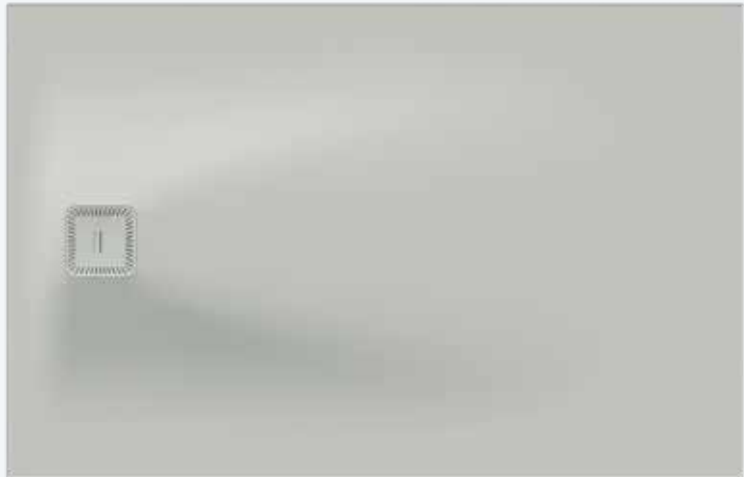

The shower fitted flush with the floor.

With Savona, we are offering a shower floor made from the new material DUSCHOLUX Bestone, in keeping with the bathtub Formia. The drain is concealed under a rectangular cover made from stainless steel or in the same colour as the floor. Savona is available in many standard sizes or can be cut to the desired size.

Features

- Flush shower floor made of DUSCHOLUX Bestone
- Available in White Matt and Cement Grey
- Pleasant, natural feel
- Silk matt, antibacterial surface
- Highest non-slip safety class C in accordance with DIN 51097
- Available in many sizes

01

02

Shower floors

01

Savona is available in five standard sizes and two elegant colours: White Matt and Cement Grey.

02

DUSCHOLUX Bestone also provides a pleasant feeling and a secure footing for the Savona shower floors. The flat shower floor has a drain cover in the same colour as the floor.

## Fjord Shower floor

Self-coloured and flush to the floor.

The flat Fjord shower floor is made of coloured mineral casting and has the appearance of precious natural stone. A visual highlight of the shower floor is the drain system via a small channel which is the same colour as the floor. As such, it is practically invisible and lends itself to the classy and smooth overall design. As a complete solution, the Fjord Air shower floor is also available with milled groove for a Walk-in shower wall.

### Fjord features

- Flush shower floor made of a mineral casting
- Available in four different colours
- Innovative asymmetrical design
- Narrow drain channel with cover in same colour as the floor
- To be fitted flush with the floor or set up on the floor
- Available in many sizes

### Free Base features

- Ultra-flat shower floor, fitted flush with the floor, made of sanitary acrylic
- Product colour White Glossy
- Modern, flush drain cover in White Glossy or Chrome
- Option to choose drain position
- Available in many sizes

## Free Base Shower floor

Ultra-flat and flexible.

Free Base 2 is an ultra-flat shower floor made of sanitary acrylic with a drain system that can be positioned in different areas. 15 standard sizes leave nothing to be desired. The decisive advantage: Almost any shower wall can be individually combined with Free Base 2. At the same time, the body-friendly material is pleasantly warm underfoot – a perfect shower experience.

# Bathtubs

Appealing bathtub designs.  
Turn your bathroom into a wellness oasis.

Free-standing bathtubs have been popular for many years, but they require a lot of space. If you do not have much space, you will be happy to hear that DUSCHOLUX also offers attractive bathtub shapes with wall connections in all sizes – including small modern bathtubs. All tubs are manufactured using body-friendly sanitary acrylic or the innovative material DUSCHOLUX Bestone. These materials are warm to the touch, have very good thermal insulation characteristics and a long service life.

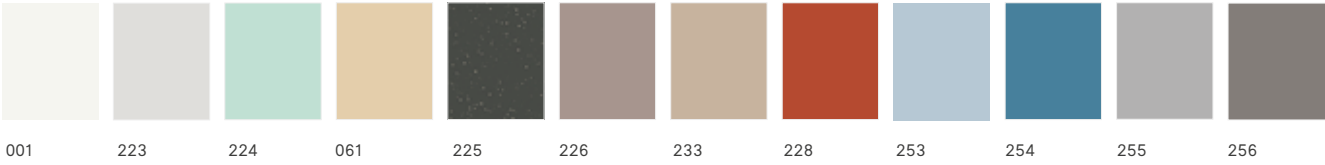

# Step-in Pure Bath solution

An surprising different approach to showering and bathing.

Step-in Pure is a combination of rectangular bathtub and shower solution. A flexible door insert turns the easily accessible and spacious shower into a securely sealed bath in an instant. A particular feature is the additional design flexibility afforded by the PanElle tub surrounds. Design flexibility with patterns and colours and the combination options with two different-coloured door inserts provide an individual touch in the bathroom.

Features

- Bathtub and shower solution as a single unit
- Apron in various colours
- Removable door insert made of acrylic
- Convenient access to the shower area
- Secure locking system with two drains
- Left- and right-handed version, useful volume 170-230 litres
- Suitable for use with various DUSCHOLUX shower walls

01

The Step-in Pure door inserts are available in Translucent White and Anthracite.

02

Step-in Pure can be combined with a variety of DUSCHOLUX shower wall – as sliding, swinging or folding variants.

Aprons Colour

- 001 White Glossy
- 223 Grey
- 224 Mint
- 061 Pergamon
- 225 Dark Grey Metallic

- 253 Stone Blue
- 254 Blue Grey
- 255 Medium Grey
- 256 Basalt Grey

# Formia Bathtub

Matt look, natural feel.

The new rectangular Formia tub is available in the new DUSCHOLUX Bestone material as a free-standing and wall version. The matt appearance and the central drain in chrome make Formia simple and modern.

Features

- Rectangular bathtub made of DUSCHOLUX Bestone
- Product colour White Matt
- Free-standing or with wall connection
- Matt look and natural feel
- Spacious interior with water depth of up to 40 cm
- Duo form: can accommodate two bathers
- Central drain with cover in chrome

01

02

Bathtubs

01

Formia is our new and modern rectangular bathtub measuring 1700 x 750 x 600 mm (Formia Free) and 1700 x 850 x 600 mm (Formia Wall).

02

The matt appearance is what makes this tub so special – and the central drain with a moulded, flush overflow is very convenient.

# Prime-line Bathtub

Bathing without limits.

With Prime-line, DUSCHOLUX offers 13 different bathtubs in a whole range of different shapes and sizes – from classical rectangular versions through round baths and corner baths and on to asymmetrical solutions. Their common characteristics: Convex curved interior walls, a distinctive edge width and particularly spacious reclining areas for superb comfort in use.

**Prime-line features**

- Bathtub made of sanitary acrylic
- Product colour White
- Striking design with high degree of reclining comfort
- Available in many sizes and shapes

**Piccolo features**

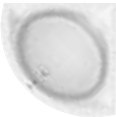

- Small-space bathtub made of sanitary acrylic
- Product colour White
- Modern, fresh design
- Optimal use of space

- 01** DUSCHOLUX still places value on having a wide range of standard bathtubs with different shapes and installation options.
- 02** The seamless transition between the tub and the panelling is particularly appealing. With the Prime-Line Free, precisely formed apron is also available in Black or Ruby Red.
- 03** Three different lengths to make optimum use of the available space, ergonomically formed, surprisingly large reclining surfaces – that is the concept behind small Piccolo bathtubs.

# DUSCHOLUX online

## Configurator

Here’s how planning can be fun and make sense.

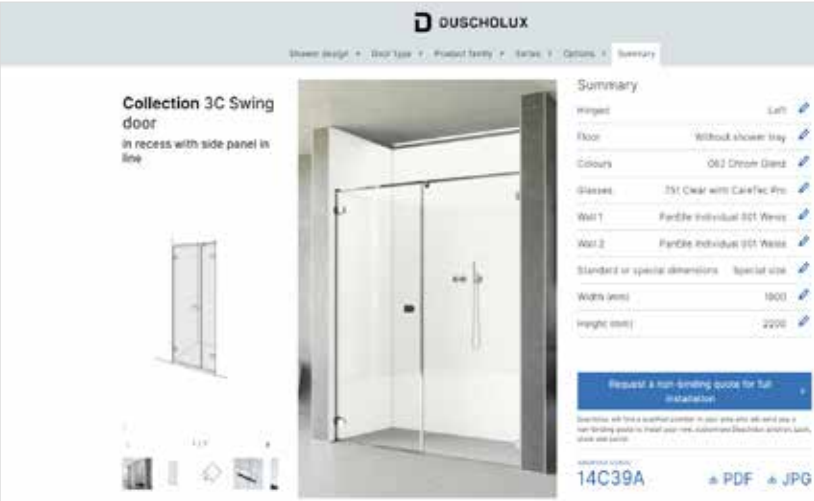

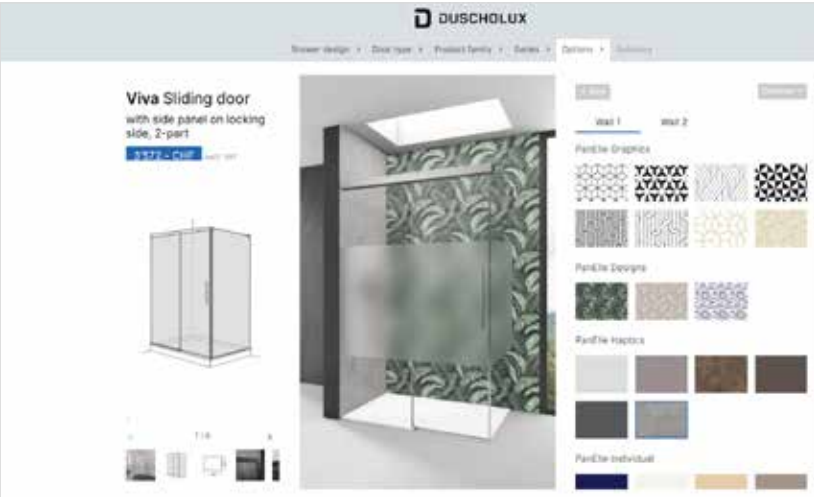

The configurator is the key feature of our new website: with intuitive user guidance, it makes it fun for you to find your ideal customised bathroom solution. It's quite simple: enter your structural requirements, followed by the type of shower or PanElle wall panelling you want. The program processes your data and immediately provides you with the most suitable solution – realistically displayed and with a price quotation for the selected model. There’s no clearer way to plan your shower solution.

01

Surprising effects with our PanElle wall panelling: experience how colours can change the effect of a room and customise your shower area.

02

Variable and realistic down to the last detail: the configurator also takes into account whether your shower wall should stand on a shower floor or a tiled floor.

Our configurator undergoes continuous development for your benefit. You now also have the option of uploading your own images. The required section can be selected intuitively during this process and viewed as PanElle wall panelling in the preview. You then have the option of downloading the file as a high-resolution JPG or PDF.

# Product registration.

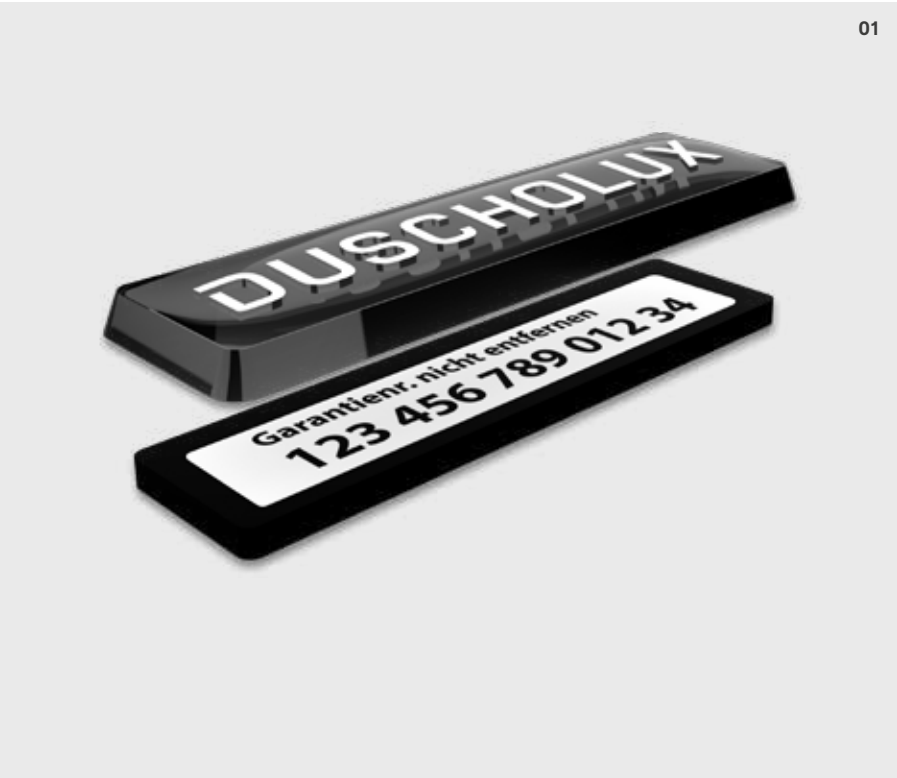

Register your product and reap the rewards.

Each of our DUSCHOLUX products is assigned a unique guarantee number. You can find this under the DUSCHOLUX clip on your product in blue or black type. Use the guarantee number to register your product on our website and receive a small welcome gift in the post. By registering your product, you will also be able to order any spare parts you require at a later time. And with your guarantee number, you will find matching products on the DUSCHOLUX online shop.

01

A guarantee clip is affixed to every DUSCHOLUX Shower wall. You will find the individual guarantee number of your product under the cap.
