# From an expert. For more than one good reason.

With DUSCHOLUX, you've made the right choice. We develop and produce bath and shower solutions for you with reliable Swiss quality. This means that our products exceed your highest expectations when it comes to aesthetics, durability and sustainability – with international success.

 Exclusive distributor

 Sales organisation, production site

For more than 50 years, DUSCHOLUX has been designing bathrooms that are right up to date and fulfil your every desire. No matter whether you want to re-charge your batteries, relax for a while or just use it every day. No matter how big or small your room or how unusual your idea – your request is our only priority.

# Simply a good feeling. DUSCHOLUX CareTec® Pro.

Economical, environmentally friendly, easy to clean. DUSCHOLUX CareTec® Pro creates tangible added value in the bathroom with innovative technology. The permanently dirt-repellent surface considerably reduces the amount of cleaning required. This saves time and money, protects health and helps the environment.

## Features

- 5-year guarantee on the easy-to-clean effect for CareTec® Pro coated glasses factory fitted
- 10 year warranty against glass corrosion
- Exclusive to DUSCHOLUX shower walls
- Developed in collaboration with a spin-off of the Swiss Research Institute for Materials and Technology EMPA
- Applied directly in the factory with state-of-the-art technology

## Unique glass finishing.

### Saves time.

The drip-off effect eliminates the need to dry the glass after showering. Depending on the hardness of the water, cleaning the shower wall with a microfibre cloth every one to two weeks is sufficient.

### Saves on cleaning agents.

DUSCHOLUX CareTec® Pro removes limescale and dirt from the exposed surface. This makes cleaning easy and without the use of limescale removers.

### It's environmentally friendly.

Reduces the amount of chemicals released into the air you breathe and the water cycle. In addition, the reduction in time and effort required for cleaning means water savings that save hundreds of litres of drinking water every year

### It's sustainable.

The surface treatment permanently protects the shower wall from glass corrosion and makes it particularly durable.

**DUSCHOLUX CareTec® Pro. Consistently concentrating on the essentials.**

Video with 1:1 comparison to an uncoated shower wall at [www.duscholux.com/caretecpro](http://www.duscholux.com/caretecpro)

The exclusive feel-good oasis, the architectural masterpiece, the small bathroom, guest bathroom or the standard for rental properties. In our product worlds, you'll find the perfect option for every desire, every bathroom layout and every budget. And the special touch is that DUSCHOLUX will make all your ideas a reality.

**Meeting your every demand.**

Your needs are just as unique as your projects. We can provide versatile solutions for all requirements using our modular concept, which is based on the principle of "Good-Better-Best". In this way, a product variant from our basic segment "C" provides the same level of satisfaction as the solution from the mid-range segment or the premium segment "Plus". They only differ in terms of features and price. No matter what variant you opt for: With all DUSCHOLUX products, quality, innovation and easy-of-use are guaranteed.

5 worlds.  
365 days to  
discover them.

# Viva

Refined style icon.  
Brings life to your bathroom.

The Viva product world embodies innovation. Masterful workmanship, clear lines of sight and invisible functionality speak for themselves. When paired with your flair for first-class bathroom design, you give this shower enclosure its own special personality. Viva represents class in its purest form.

## Viva Sliding door

Variable profile and creative freedom.

The Viva sliding door fits into your room particularly well thanks to its innovative guide profile. Glass or stone-effect PanElle can also be integrated into the profile to add that special touch. This is how the right PanElle rear wall can really bring together the overall look. Rich in contrast or understated – combine all the benefits of a modern sliding-door shower enclosure with a surprising level of creative freedom.

### Features

- Reduced-frame shower enclosure with 8 mm glass thickness
- Colours Silver Matt and Platinum Silver
- Including DUSCHOLUX CareTec® Pro glass finishing
- Guide profile can be customised with glass- or stone-effect PanElle
- Slim magnetic closure made of aluminium
- Soft-close function for smooth opening and closing
- Push & Clean function for easy cleaning
- Shower enclosure height up to 2500 mm

### 01

With the new Viva and PanElle Stone, the shower enclosure blends into the rear wall – and creates an exciting overall concept.

### 02

The PanElle surface is skilfully integrated into the guide profile – whether you go for glass or stone.

### 03

Special solutions for particular rooms: with Viva, the planning remains flexible from the beginning.

01

**01**

With no wall profiles, Viva impresses with its high level of transparency and virtually unliwited possibilities – even in made to measure dimensions.

**02**

The hidden functions are a guarantee of comfort with Viva: the slim top profile with concealed roll guide, the Push & Clean function for easy cleaning and our soft-close mechanisms for smooth opening and closing.

## Individuality lies in the details.

The new Viva shows you how.

Without a wall profile and with a concealed roller guide in the minimalistic top profile, DUSCHOLUX Viva is reduced to the bare essentials: a partially framed shower enclosure that enhances every bathroom with its transparent effect. The new freedom offered by the profile designs gives you a unique interior design with a personal touch.

02

## Viva Swing door

Colourful accents in unison with the rear wall.

For those who prefer elegant swing doors, our new Viva shower enclosure offers plenty of room for individuality. You can even pair the glass-effect surface of the hinges with the matching PanElle rear wall. In addition to the popular Chrome options, you can also go for White, Black and Stainless Steel Finish. With Viva, everything is possible!

### Features

- Frameless shower enclosure with 8 mm glass thickness
- Fitting colours Chrome, White, Black and Stainless Steel Finish
- Including DUSCHOLUX CareTec® Pro glass finishing
- Fittings can be customised with glass-effect PanElle
- Internally flush surfaces for easy cleaning
- Swing doors open inwards and outwards
- Slim magnetic closure made of aluminium
- Lift-and-lower mechanism for easy opening and closing
- Optional wall profiles for an extended adjustment range
- Shower enclosure height up to 2200 mm

### 01

The slim and extremely flat hinge is flush on the inside and particularly easy to clean – with a practical lift-and-lower mechanism as standard.

### 02

Individuality down to the last detail: hinges and handles are also available in glass-effect PanElle.

### 03

Viva means freedom – with colours and installation versions too.

New, better, Viva: The Viva swing door is the perfect blend of design, functionality and individuality. Add your own specific personal style to your bathroom using striking touches of colour and visual elegance. DUSCHOLUX CareTec® Pro glass finishing is included in the price. This is where functionality meets innovation. Making the Viva swing door a genuine style icon by way of attractive design.

**01**

The swing door that opens both inwards and outwards guarantees flexible access. Installed here with a wall connection profile.

**02**

A new addition to the colour range: Black fittings and handles, providing even more design possibilities.

**03**

PanElle can be integrated into the profile and glass holder as a feature. For example, in Basalt Grey.

**04**

The optional, narrow wall profile provides an additional range of adjustment as compensation for wall angles.

# Before – the wish. After – the dream bathroom.

At the start of the story of a new bathroom there is an idea, a need, a vision. Whatever the reason, we'll finish the story together with you. We're happy to help you with reliable expertise, an efficient process, countless special solutions and our own installation team. After all, we want to know that your dream has become a reality.

# Collection

The one and only.  
As flexible as you need.

The frameless product world Collection focuses on what's important: exceptional convenience, a simple look and no effort. Tailor-made frameless shower enclosures give you a unique shower experience in any room layout. With almost limitless possibilities for installation and refined details, Collection lets your creativity run wild. Lacking in profile? Collection is anything but that.

01

**01**

Collection 3 is also a visual highlight as a corner entry solution featuring the Carbon glass variant.

**02**

The well thought out clip-in system of Collection 3 Plus fastens the water drip profile in a groove in the bottom edge of the glass. The decisive advantage in terms of cleaning: Dirt and limescale cannot build up here.

**03**

A fine groove holds the plastic seals directly onto the edge of the glass. With Collection 3 Plus, cleaning has never been easier.

**04**

Collection 3 simplifies versatile solutions. Shown here as a niche solution with swing door and side panel in Front and a shower floor Fjord in Black Galaxy.

02

03

## Collection 3 Swing door

Transparency without profiles.

The Collection 3 frameless shower enclosure leaves plenty of scope for individual design. This is because the profile-free glass surfaces provide elegant transparency that can enhance any room. The inside surfaces are flush, making Collection 3 particularly easy to clean.

**Collection 3C features**

- Frameless shower enclosure with 8 mm glass thickness
- Fitting colour Chrome
- Including DUSCHOLUX CareTec® Pro glass finishing
- Screw-in flush fittings
- Swing doors open inwards and outwards
- Selection of handles and crossbars
- Slim magnetic closure made of aluminium
- Lift-and-lower mechanism for easy opening and closing
- Additional installation options thanks to new glass-glass hinge
- Shower enclosure height up to 2200 mm

**Collection 3 Plus added value**

- Seals without a clamping surface
- Completely flush internally for really easy cleaning

reddot design award

04

01

**Excellent design, attractive price.**

The frameless and multi-award-winning Collection 3 shower enclosure is now available in the Collection 3C version. Finished with DUSCHOLUX CareTec® Pro and a smooth internal design, it's particularly easy to clean. The hinges are screw-fastened, offer various adjustment options and additional designs and can also be used for mirrored glass. DUSCHOLUX now offers the elegant Collection look in an even wider range – so that no wish is left unfulfilled.

04

02

**01**  
When it comes to installation and fitting, almost anything is possible: custom sizes, bevels and glass cut-outs make this range work for every room layout.

03

**02**  
The new glass-to-glass hinge of Collection 3C rounds off the installation options.

**03**  
Small detail, big impact: the smooth internal screw-fixed hinges combined with the DUSCHOLUX CareTec® Pro glass finishing make Collection 3C particularly easy to clean.

05

**04**  
With the glass-glass hinge, Collection 3C offers new installation options. Collection 3C impresses with its aesthetically pleasing appearance and is easy to clean thanks to its flush inner surfaces.

**05**  
A shower with integrated bench for sitting? A custom cut-out makes even the most unusual ideas possible.

## Collection 3C Sliding door

Aesthetically pleasing and elegant.

As a transparent shower enclosure with sliding doors, Collection 3 stands out due to its ability to be adapted to the specific room layout. Whether in niches, as a corner installation, or Walk-in variant, the frameless solution comes without an upper guide profile, giving a light, well-lit look and feel. The sleek, lateral wall profiles in Platinum Silver emphasise the transparent design and provide modern visual highlights.

### Collection 3C features

- Frameless shower enclosure with 8 mm glass thickness
- Fitting colours Platinum Silver, Black and Black-Chrome
- Including DUSCHOLUX CareTec® Pro glass finishing
- Slim magnetic closure made of aluminium
- Shower enclosure height up to 2100 mm

02

### 01

Collection 3C with corner entry: a stable and spacious solution that is bathed in light, for straightforward installation situations. Also available in non-standard dimensions.

### 02

The Walk-in version in Black can be shoved together in order to save space.

### 03

Roller guide at the top with Black-Chrome design.

### 04

Minimalistic, transparent design: Handle matches the Black-Chrome profile colour.

### 05

Niche installation in Black profile colour as a transparent sliding door solution.

01

03

04

05

01

**01**

Plenty of space under a sloped ceiling – Collection 2, shown here with oval hinges and fittings. It also fits in unusual room layout.

**02**

The structural aesthetics of the corner variant are clear and striking.

**03**

The matching hinges and handles have a uniform design and a discrete style.

**04**

Collection 2 as corner installation with swing door and side panel. The integrated lift-and-lower mechanism makes it easy to open and close the door.

02

03

04

## Collection 2

Classical design with a wide range of variants.

Collection 2 stands out due to its clear and harmonious structural aesthetics. With its wide range of variants, this DUSCHOLUX shower enclosure can be installed in a virtually unlimited number of different ways. With the exquisite, traditional look of the handles and hinges, you will always be making the right choice.

### Features

- Frameless shower enclosure
- Glass thickness 8 mm (fixed parts), 6 mm (door parts)
- Fitting colours Platinum Silver and Chrome Matt
- Swing doors open inwards and outwards
- Lift-and-lower mechanism for easy opening and closing
- Fittings and handles rectangular or oval
- Shower enclosure height up to 2100 mm

## Saving space for the bathtub.

Collection 2 is a shower enclosure that can swing out against the wall to save space. As a frameless, one to three-leaf panel overbath screen, it meets the highest design requirements.

### Features

- One- to three-panelled folding shower enclosure for the bathtub
- Shower enclosure as a walk-in solution with wall crossbar or ceiling support
- Fitting colours Platinum Silver, Chrome Matt and Silver Matt
- 360° hinge for a wide range of movement
- Fittings corner or oval
- Height up to 1800 mm for the bathtub and up to 2100 mm as a shower enclosure

### 01

Two-piece Collection 2 with rectangular 360° hinges. The hinges allow the door elements to swing inwards or outwards with ease.

## Walk-in with no limits

Free-standing shower panels with spacious access, free of any obstacles, enhance any modern bathroom. The Collection 2 offers limitless showering pleasure in arbitrary shapes and sizes – fastened with ceiling support or wall crossbar to suit the room configuration.

# Many faces. One clear profile.

People from all over the world are behind the DUSCHOLUX brand – as multi-talented and exceptionally qualified individuals, they all help to ensure that our bath and shower solutions not only meet your highest requirements, but exceed them too. That's what we call adding value.

**„The best praise is  
a satisfied customer.  
That doesn't take many  
words.“**

**„What I do here is seen  
and appreciated. That's  
why I like going to work,  
even on a Monday.“**

# Air

Transparent trendsetter.  
More room for ideas.

The frameless product world Air pays homage to true freedom of design and a sensuality that creates a great deal of personality from this minimalist style. The free-standing shower enclosures work particularly well in spacious and accessible Walk-in solutions. The large number of colour options enables you to choose freely between a carefully understated style and a sophisticated highlight. There's more than love in the Air!

## Air Plus

High standard with added value.

The new version of Air Plus impresses with the shortest delivery times. The combination of a beautifully designed DUSCHOLUX Bestone shower floor and Air shower enclosure is always available straight away in standard sizes. If the wall slope complies with construction standards, a measurement is no longer required and the shower enclosure can be installed without delay. The special profile connection replaces the usual silicone joint and makes Air Plus maintenance-free. And, of course, this version of Air doesn't require a crossbar and is particularly easy to clean using DUSCHOLUX CareTec® Pro glass finishing.

### Features

- Complete solution comprising DUSCHOLUX Bestone Savona shower floor and frameless 10 mm walk-in shower enclosure
- Transparent look – without the usual wall profile or crossbar
- Including DUSCHOLUX CareTec® Pro glass finishing
- Maintenance-free and safe – with no visible silicone joints
- Fast delivery with short turnaround times
- Broad range of standard sizes, custom sizes available
- Shower enclosure height up to 2200 mm

### 01

Air Plus offers the lightness and transparency of the Air product world in combination with the DUSCHOLUX Bestone Savona shower floor as a fast, secure and maintenance-free package.

### 02

The 10 mm-thick glass is securely mounted without any crossbars getting in the way. Wall slopes of up to 11 mm can be compensated as standard.

### 03

Minimalist, easy-care aluminium profiles replace the usual silicone joint with Air Plus – making maintenance a thing of the past.

## Air 3

### Maximum transparency.

No drilling or screws. Our newest Walk-in variant, the Air 3, is mounted on the wall and the floor using concealed glass anchors. Only a few, sophisticated components are required to ensure the highest possible level of transparency and a straightforward assembly process in only a single step. A discrete, coloured silicone joint along the floor-wall interfaces suffices.

#### Features

- Frameless shower enclosure with 10 mm glass thickness
- Spacious walk-in solution
- Suitable for mounting on tiles and PanElle wall panelling
- Including DUSCHOLUX CareTec® Pro glass finishing
- Profile-free for maximum transparency
- Safety thanks to concealed glass anchors
- Shower enclosure height up to 2200 mm

01

02

01

Not a profile in sight, yet a secure hold is guaranteed by glass anchors.

02

Absolute facility in the absence of profiles. The free-standing 10 mm glass is available in different colours of glass.

01

## Air

Free-standing and unique.

The free-standing Air shower panel is fastened via floor and wall profiles, either surface-mounted or flush-mounted, and so does not need a stabilising crossbar – even with shower floors. The Air 2 variant goes one step further: With no visible profiles, it offers a pure, clear appearance for modern bathroom architecture. Glass heights up to 2200 mm, custom sizes and different glass designs leave plenty of room for individuality.

### Air 2 features

- Frameless shower enclosure with 10 mm glass thickness
- Colours Silver Matt, Platinum Silver, Stainless Steel Finish and Black
- Wall profile also available in a flush-mounted version
- Including DUSCHOLUX CareTec® Pro glass finishing
- Four new eye-catching glass colours
- Suitable for both tiled shower floors and shower enclosures
- Shower enclosure height up to 2200 mm

### Air difference

- Additional floor profile made of brushed stainless steel.

02

### 01

An interesting accent in modern bathroom architecture: Air 2 in Polar glass with satin finish which fades as it rises.

### 02

Barely visible profiles with Air 2. Available as a surface-mounted or flush-mounted solution.

### 03

The wedge-shaped floor profile of the Air shower enclosure can have a slope of up to one degree or 1.8 percent.

03

Fjord Air with matching shower floor.

The Air shower enclosure and our floor-level Fjord shower floor made of coloured mineral casting work particularly well together. Drainage takes place via a small channel across the width of the floor. A cover, which is the same colour as the floor, conceals the drainage process. The edge of the floor and the width of the channel are optimally tailored to each other.

Air Colours

Air Colours makes state-of-the-art bathroom design possible. The four new glass colours Sunset Gold, Ocean Blue, Desert Sun and Ruby Red transform the traditional shower enclosure into an expressive design element.

01

## DLight Air

For your own personal style.

DLight Air is one of the highlights of the Air shower enclosure series. The integrated LED light bar provides for customised colour and lighting effects. The Walk-in shower enclosure with ESG clear or the "Grasses" motif will turn your bathroom into something truly unique.

### Features

- Frameless shower enclosure with 10 mm glass thickness
- Air wall profile with LED lighting strip and full range of RGB colours
- Variable adjustment in terms of colour, brightness and switching of colours
- Including DUSCHOLUX CareTec® Pro glass finishing
- Shower enclosure height up to 2200 mm

### 01

Air wall profile with LED light bar. Make use of the entire RGB selection to set the colour, brightness and colour changes.

### 02

The "Grasses" pattern is a real eye catcher, combined here with the Fjord Air shower floor made of mineral casting with a surface that is easy to clean.

02

# Bathroom manufacture division. Made just for you.

We're happy to get hands on in our DUSCHOLUX bathroom manufacture division, handling unusual requests and architectural visions. This is where we produce room dividers, doors or personalised decoration to match your ideas and measurements. We particularly demonstrate our planning and craftsmanship skills when manufacturing easy-to-clean glass doors and roomheight partitions.

By the way, special service is included in all bathroom manufacture orders – our DUSCHOLUX bathroom manufacture team will provide you with personal support from design to installation to help you implement property solutions. You will also be able to rely on over 50 years of DUSCHOLUX experience.

# Bella Vita

Bestseller with style.  
And meaning for life.

The reduced-frame product world Bella Vita gives you the freedom to implement any design idea. With a wide variety of versions, well-thought-out functions, spacious dimensions and high-quality materials. The various door and glass options give a small bathroom just as much class as a large one – with a masterfully understated look. Bella Vita makes life particularly beautiful.

01

**01**

Big in small niches too: Bella Vita 3 can be easily integrated anywhere to save space.

**02**

A nice touch: the aesthetic profiles in a variety of colours cover all screw connections and mountings.

**03**

Bella Vita 3 Plus offers ceiling-height solutions, even with Partial Fine Satin glass.

02

## Bella Vita 3 Sliding door

Transparent with a touch of colour.

Winner of the iF product design award, Bella Vita has been setting standards in functionality and adaptability for many years. This is why we are constantly developing this product world further. Since 2018, DUSCHOLUX has been offering you additional floor to ceiling solutions with Bella Vita 3 Plus that impress with a more transparent design with no wall profiles.

### Bella Vita 3 features

- Reduced-frame shower enclosure
- Glass thickness 8 mm (fixed parts), 6 mm (door parts)
- Colours Silver Matt, Platinum Silver, Black and Black-Chrome
- Slim magnetic closure made of aluminium
- Optional soft-close function for smooth opening and closing
- Push & Clean function for easy cleaning
- Shower enclosure height up to 2100 mm

### Bella Vita 3 Plus added value

- No wall profile for an even more transparent design
- Floor-to-ceiling version available

03

### Smooth-running with aesthetically pleasing profiles.

No matter whether you opt for the linear or round version: The innovative glass guidance on large rollers, optional self-closing with soft-close effect and the high-quality materials ensure quiet running. The aesthetically pleasing profiles are particularly eye-catching. They cover all fittings and hangers and are also available in the trendy colours Black and Black-Chrome.

#### 01

Bella Vita 3 Plus stands out due to its aesthetic, transparent design achieved by forgoing wall profiles.

#### 02

The sliding doors can be cleaned effortlessly using the practical Push & Clean function. The sliding doors can be pivoted outwards by pressing on them gently from the outside.

#### 03

The glass hangers are integrated into the profile. When the Bella Vita 3 Plus is installed in a corner, the Chrome cover cap becomes an eye-catching highlight.

#### 04

As a quarter circle shower with wall profiles, the Bella Vita 3 Round shows its adaptability. Optimum use of space with a timeless design.

01

### A distinct advantage.

With the transparent splash guard, a tub can be quickly transformed into a spacious shower. This is made particularly appealing by the smooth-running sliding doors of Bella Vita 3. One, two or four-panelled variants are available. Bella Vita also features a wide range of Walk-in solutions. The one or two-panelled sliding doors are functionally superior to the traditional Walk-in versions.

02

#### 01

The glass panel of the single-panelled sliding door is freely moveable with Bella Vita 3. This means that the fixtures are easily accessible and can be cleaned effortlessly.

#### 02

Bella Vita 3 with single-piece sliding element in combination with side panel. The striking design shown here is the Black variant.

#### 03

An attractive solution for all niches which cannot be closed off for structural or optical reasons. Large-format glass is out of the question? Then the two-panelled door can be used.

03

## Bella Vita 3 Swing and pivot folding door

Spacious or space-saving.

Every bathroom is different. That is why the Bella Vita 3 range offers additional door models for individual room requirements. Swing doors in numerous sizes and installation variants enable comfortable access to the shower area. Pivot folding doors are space-saving alternatives that still provide a large entry area.

### Features

- Reduced-frame shower enclosure with 6 mm glass thickness
- Colours Silver Matt and Platinum Silver
- Slim magnetic closure made of aluminium
- Lift-and-lower mechanism for easy opening and closing
- Shower enclosure height up to 2000 mm

02

01

### 01

The perfect niche solution: Bella Vita 3 swing door, flexible in terms of width and height.

### 02

The swing door with side panel and the Fjord shower floor provides convenient access. The fixed panel with the Mirror glass design is a splash guard and full-body mirror in one.

### 03

Swing doors as corner entry with fixed panels. Easy to open and close thanks to the integrated lift-and-lower mechanism.

03

## Generous entry.

Whenever a large amount of space needs to be won, Bella Vita 3's pivot folding doors are used. They provide a particularly generous entryway and can be folded completely against the wall. The new bow-shaped handle mounted horizontally facilitates easy control of the glass leaves.

01

02

### 01

As a pivot folding door with Platinum Silver profile and with horizontal handle. Convenient use guaranteed. A miracle for small niches with optimum utilisation of space.

### 02

Corner entry with pivot folding door as a transparent solution. The doors fold open against the wall providing you with the greatest possible amount of entry space.

## Bella Vita C Sliding door

Linear and discrete.

Our shower enclosure Bella Vita C with sliding doors wins over customers with its linear design. Its panes of glass open outwards, making them easier to clean. Bella Vita C features invisible fittings and is versatile in terms of its use and installation options.

### Features

- Reduced-frame shower enclosure with 6 mm glass thickness
- Colours Silver Matt, Silver Silk Matt, Black and Black-Chrome
- Shower enclosure height 2000 mm

02

01

- 01** Sliding door in niche. Partial Fine Satin glass offers a greater degree of privacy.
- 02** Corner entry: The door elements can be opened outwards to facilitate cleaning.
- 03** Wall connection with smooth-running rollers in the upper profile. In Platinum Silver in this case.
- 04** Round handle with discrete design.

03

04

# Allegra

Linear classic.  
A welcome addition to any bathroom.

If you prefer to see the big picture, welcome to the Allegra product world. The entry-level series fits perfectly in any situation while staying discreetly in the background. The framed shower enclosures can be installed in a flash, so they pay for themselves, especially if you're building a property. Allegra – the classic for your bathroom.

## Allegra Sliding door

Comfortable and expressive.

Our new Allegra Plus with two-panelled sliding doors combines all the strengths of a classic with a modern, lighter look, since the innovative seal means that the overlapping of the glass is barely visible. This creates more transparency – and requires less of a profile. The simple swing out mechanism makes cleaning much easier.

### Allegra features

- Framed shower enclosure with 4 mm glass thickness
- Colour Silver Matt
- Two- and three-panelled sliding doors
- Doors open outwards for easy cleaning
- Shower enclosure height 1900 mm

### Allegra C difference

- Framed shower enclosure with 5 mm glass thickness
- Shower enclosure height up to 2100 mm

### Allegra Plus added value

- 5 mm glass thickness
- Narrow, virtually transparent seals
- Shower enclosure height up to 2000 mm

### 01

The slim, transparent seals between the door and the fixed panel guarantee reliable splash protection without glass overlapping.

### 02

Allegra Plus doors swing inwards, making cleaning and maintenance much easier.

### 03

The two-panelled sliding door offers various design options: as corner entry, in niche designs or with an additional side panel.

**01**

As a three-piece sliding door, Allegra provides convenient and safe entry into the niche.

**02**

The unhinging mechanism facilitates cleaning.

**03**

Large corner entry thanks to sliding doors that open on both sides.

**The smart solution.**

Allegra sliding doors with two or three sliding elements are particularly smooth and safe. The connecting elements are the handle bars integrated into the vertical profiles for convenient opening and closing. The smart opening mechanism in the smooth glass surfaces ensures that the cleaning process is straightforward.

### Functional and reliable.

The framed Allegra C offers corner entry and niche solutions. Expressive profiles emphasise the linear design. The round, Chrome handle provides a deliberate visual contrast. The unhinging mechanism simplifies cleaning and maintenance processes.

01

02

03

04

#### 01

With its corner entry or niche options, Allegra C is highly suitable for daily use.

#### 02

The straightforward unhinging mechanism makes the shower easier to clean.

#### 03

The round, Chrome handle provides an appealing visual contrast to the Silver Matt profiles.

#### 04

Niche solution with transparent appearance thanks to barely visible seal between door and fixed panel.

01

## Allegra Swing and pivot folding door

Straightforward and versatile.

The Allegra shower enclosure is the classic entry-level model from DUSCHOLUX as it offers brand quality at an attractive price. Solid materials and high-quality workmanship ensure a long service life. Particularly practical: Allegra has special glass protection which causes the water to bead across its surface and which enables dirt deposits to be more easily removed.

### Features

- Framed shower enclosure with 4 to 6 mm glass thickness
- Colour Silver Matt
- Swing, pivot and pivot folding door
- Also available in Walk-in version
- Shower enclosure height 2000 mm

02

01

The swing doors can be opened inwards and outwards. The floor-level corner installation design means that the shower can be accessed conveniently.

03

02

A stylish highlight: the rounded handle with Black insert.

03

The horizontal version of the handle is better suited to the pivot folding door in terms of ergonomics.

04

Swing door with fixed panel in niche. Easy to open and close thanks to the integrated lift-and-lower mechanism.

**01**

Pivot door with fixed part and side panel.

**02**

Conveniently, the 2-panelled pivot folding door folds open against the wall.

**03**

Thanks to the pivot folding door, the corner entry area is very large. The significant amount of glass used gives the shower enclosure a light and flexible appearance.

### Robust, clever and space-saving.

The Allegra always exhibits a clear design and fits seamlessly into any room layout. The folding pivot doors with horizontal handles impress as particularly space-saving solutions in niches and corners. Thanks to the internally flush hinges with their modern, linear aesthetics, the doors can rest up against the wall, thus saving space. The smart wall connection profile with its adjustment range of up to 25 millimetres simplifies the assembly process.

01

01

Allegra Walk-in with Black decor and a narrow wall profile with equalising function. Combined with the Savona shower floor in this case.

02

The Walk-in solution impresses with its floor-level access, White profile and White crossbar. The discrete clear glass pane remains in the background.

### Walk-in re-imagined.

In addition to the numerous existing installation variants and door designs, DUSCHOLUX also has a range of new Walk-in solutions. From two geometric designs in Black to a transparent clear glass solution with coloured profiles in Silver, Black or White Matt.

02

Allegra

01

The self-supporting complete shower, Allegra C, provides everything you need for a wonderful showering experience in a single product.

02

Would you prefer the curved version? Then order the round variant of Allegra C. Ticks all boxes, installed in a flash.

## Allegra C Complete shower system

Ready to be installed.

Showering in untiled spaces? With Allegra C, it's a clean affair. The complete shower can be set up swiftly on site so it is ready to be installed – with all of the functions you require and without any time-consuming conversion work. Because the self-supporting solution has a non-slip, easy-clean shower floor, an all-round enclosed shower cabin made of glass and height-adjustable fittings pole and practical shelf. Straightforward and great value for money.

### Features

- Complete shower system
- Colour Silver Matt
- Rear walls made of Fine Satin Optiwhite
- Round or rectangular version
- Sliding doors can be swing inwards for easy cleaning
- Can be installed anywhere: only water connection and drain needed
- Total height 2080 mm

02

# PanElle

Straightforward alternative.  
For a new atmosphere in the bathroom.

A completely new atmosphere in the bathroom, with absolutely no dirt, dust and laborious renovation work? No problem! With the ingenious PanElle wall panelling system, DUSCHOLUX offers a simple alternative that will give your bathroom a makeover without having to go through a full renovation. PanElle wall panelling panels are available in many colours and patterns or with personal photographic motifs. They are simply installed over the top of the existing base and can be easily adapted to the existing architecture thanks to the modular system. This is quick to install, impresses with its modern design and provides an astonishing new atmosphere.

After

## PanElle Wall panelling

From outdated to astonishing.

Want to turn an outdated bathroom into a wellness oasis in no time at all without any laborious conversion work? And without noise, dirt and dust? It's never been so simple – with PanElle. PanElle wall panelling is available in various attractive colours, patterns and layouts. It can be adapted to the surroundings wonderfully well and, thanks to the joint-free assembly process, is incredibly easy to clean.

### Features

- Wall panelling made of rigid foam panels with acrylic coating
- Panel thickness 6 mm or 11 mm
- Twelve individual colours, four graphic patterns, six on-trend patterns and four natural stone panels
- 195 RAL colours or personalised designs available using the photo printing process
- Joint, profile or invisible PanElle Click connections
- 100% moisture-resistant
- Scratch-resistant, impact-resistant, light-resistant
- Easy cleaning thanks to fewer joints
- Panel size up to 1500 x 2500 mm

Before

# PanElle Graphics

New patterns in black and white set bathroom trends.

In modern bathrooms, individuality is the key. That is why DUSCHOLUX has added four new PanElle Graphics patterns to its PanElle wall panelling range. They are inspired by hip architectural trends and add new touches to your bathroom design. The key detail here is the intensity: you can determine the degree of transparency yourself with a choice of four gradations. This way, you can achieve individual and surprising effects.

**01**

The perfect cut at the factory ensures a precise, waterproof transition without offset in the Flowers, Cubes, Lines and Trigon patterns.

**02**

With PanElle Graphics, you can create unique effects in your bathroom – in combination with the glass colour Carbon for example.

**03**

With PanElle Graphics, you can choose the degree of intensity yourself: with 90, 70, 40 or 20% transparency.

# PanElle Stone

Elegant look with genuine natural stone.

PanElle Stone is a unique combination of genuine natural stone and the proven PanElle wall panelling system. The stone is applied onto the backing layer in a thickness of 2-4 mm. With various types of slate, PanElle Stone impresses with the look and feel of a natural product, which can be easily machined and has a very low dead weight. As with real stone, each tile is an original and offers a different effect.

Earth

Graphite

Volcano

Quartz

## PanElle Stone

Looks like real stone, but is PanElle wall panelling: available in the colours Earth, Graphite, Volcano and Quartz, PanElle Stone is an interesting alternative to heavy natural slabs.

## 01

With PanElle Click, the tiles merge into one another almost invisibly. The waterproof connection is particularly suitable for the new, large-scale patterns.

## 02

The new connection for wall panelling with a thickness of 11 mm is a revolutionary alternative to buffer profiles and silicone joints.

## PanElle Click – Invisible and revolutionary.

We have extended our PanElle wall panelling range with a practical connection solution that has a panel thickness of 11 mm: PanElle Click is particularly easy to install and ensures a homogeneous, almost invisible transition. That is why the system is perfectly suited to large-scale patterns and photo prints as an alternative to buffer profiles and silicone joints. You can position PanElle Click precisely and without offset – visually seamless and waterproof.

225 Dark Grey Metallic

## PanElle Individual

Anything is possible.

PanElle is available in twelve individual colours, six trendy patterns, four graphic patterns and four natural stone variants. In addition, you can choose from 195 RAL colours to create customised solutions. With such a huge range of options, it is possible to turn any room into a unique wellness bathroom with an individual touch. From the classy, traditional look right through to a trendy, modern appearance.

## PanElle Trend

Trendy materials for your bathroom.

You really do have to take a close look to work it out: The six trendy PanElle patterns offer all the advantages of smooth surfaces and effortless cleaning. No matter if you opt for a concrete, wooden, brickwork or tiled effect - the astoundingly genuine-looking eleven millimetre-thick acrylic sheets have an ultramodern appearance and will give your bathroom genuine loft-like character.

243 Concrete

262 Exposed Concrete

263 Wood Vintage

264 Brickwork

265 Tiles Anthracite

266 Tiles Grey

## PanElle Photo printing

Boundless character.

Images selected from an image database or your own high-resolution photo motifs used as a large-scale wall design can turn rooms into unique bathing landscapes. They are simply printed onto PanElle panels using a glass effect. They can also be illuminated as an Enlight version on request and then mounted. So, if you've ever wanted to shower above the rooftops of New York City, you need only step into your bathroom.

### Enlight – illuminating perspectives.

With an illuminated Enlight photo motif, PanElle can have a quite incredible impact on your bathroom. Niche and Walk-in showers in particular benefit from the thrilling lighting conditions that are created in combination with your images. The wall panelling system also gives the space a particular atmosphere when it is used to provide a touch of colour. The decisive advantage: As they have no joints, PanElle panels are a lot more hygienic than tiles.

## PanElle WC-panelling

Elegantly packaged.

Using design panelling for toilet modules, it is possible to use PanElle to convert a conventional standalone toilet into an easy-to-clean wall-mounted toilet quickly and easily. The pre-fabricated panelling, which is available in four noble standard colours, is modified on site. The surface, which is free of joints and very easy to clean, makes the panelling particularly impressive. In no time at all and with very little effort, your toilet will be turned into a hygienic eye-catcher.

### Features

- Designer panelling for WC units from Tece and Geberit
- Four colours available in stock
- For fast transformation from a free-standing to a wall-mounted WC
- Height adjustment on site – delivered with length to spare
- Additional PanElle Objects colours available for custom-made orders and made to measure

02

PanElle

01

### 01

The PanElle panelling for the Tece module, shown in Grey Beige here, is available in four different colours. Other colours and made-to-measure panels can be custom-made on request.

### 02

Swift conversion from standalone toilet to wall-mounted toilet. Also with the panelling in the colour Black Star for the toilet module Duofix by Geberit.

132 Light Grey

235 Black Star

# Shower floors

Sure footing on level ground.  
Impressively hygienic and elegant.

Modern bathrooms are open, inviting and bright. Floor-level showers are enjoying great popularity: Without a threshold, they are also safe and convenient for older people. DUSCHOLUX has a full range of floor-level shower floors. They offer a significant advantage in comparison to tiled floors: They have no joints and thanks to their smooth, yet non-slip, surface, are easy to clean.

## Savona Shower floor

The shower fitted flush with the floor.

With Savona, we are offering a shower floor made from the new material DUSCHOLUX Bestone, in keeping with the bathtub Formia. The drain is concealed under a rectangular cover made from stainless steel or in the same colour as the floor. Savona is available in many standard sizes or can be cut to the desired size.

### Features

- Flush shower floor made of DUSCHOLUX Bestone
- Available in White and Cement Grey
- Pleasant, natural feel
- Silk matt, antibacterial surface
- Highest non-slip safety class C in accordance with DIN 51097
- Available in many sizes

01

02

### 01

Savona is available in five standard sizes and two elegant colours: White and Cement Grey.

### 02

DUSCHOLUX Bestone also provides a pleasant feeling and a secure footing for the Savona shower floors. The flat shower floor has a drain cover in the same colour as the floor.

## Free Base Shower floor

Ultra-flat and flexible.

Free Base 2 is an ultra-flat shower floor made of sanitary acrylic with a drain system that can be positioned in different areas. 15 standard sizes leave nothing to be desired. The decisive advantage: Almost any shower enclosure can be individually combined with Free Base 2. At the same time, the body-friendly material is pleasantly warm underfoot – a perfect shower experience.

## Fjord Shower floor

Self-coloured and flush to the floor.

The flat Fjord shower floor is made of coloured mineral casting and has the appearance of precious natural stone. A visual highlight of the shower floor is the drain system via a small channel which is the same colour as the floor. As such, it is practically invisible and lends itself to the classy and smooth overall design. As a complete solution, the Fjord Air shower floor is also available with milled groove for a Walk-in shower enclosure.

### Fjord features

- Flush shower floor made of a mineral casting
- Available in four different colours
- Innovative asymmetrical design
- Narrow drain channel with cover in same colour as the floor
- To be fitted flush with the floor or set up on the floor
- Available in many sizes

### Free Base features

- Ultra-flat shower floor, fitted flush with the floor, made of sanitary acrylic
- Product colour White
- Modern, flush drain cover in White or Chrome
- Option to choose drain position
- Available in many sizes

# Bathtubs

Appealing bathtub designs.  
Turn your bathroom into a wellness oasis.

Free-standing bathtubs have been popular for many years, but they require a lot of space. If you do not have much space, you will be happy to hear that DUSCHOLUX also offers attractive bathtub shapes with wall connections in all sizes – including small modern bathtubs. All tubs are manufactured using body-friendly sanitary acrylic or the innovative material DUSCHOLUX Bestone. These materials are warm to the touch, have very good thermal insulation characteristics and a long service life.

## Step-in Pure Bath solution

An surprising different approach to showering and bathing.

Step-in Pure is a combination of rectangular bathtub and shower solution. A flexible door insert turns the easily accessible and spacious shower into a securely sealed bath in an instant. A particular feature is the additional design flexibility afforded by the PanElle tub surrounds. Design flexibility with patterns and colours and the combination options with two different-coloured door inserts provide an individual touch in the bathroom.

### Features

- Bathtub and shower solution as a single unit
- Apron in various colours
- Removable door insert made of acrylic
- Convenient access to the shower area
- Secure locking system with two drains
- Left- and right-handed version, useful volume 170-230 litres
- Suitable for use with various DUSCHOLUX shower enclosures

**01**  
The Step-in Pure door inserts are available in Translucent White and Anthracite.

**02**  
Step-in Pure can be combined with a variety of DUSCHOLUX shower enclosure – as sliding, swinging or folding variants.

### Aprons Colour

- 001 White
- 223 Grey
- 224 Mint
- 061 Pergamon
- 225 Dark Grey Metallic
- 226 Taupe Metallic
- 233 Cappuccino
- 228 Burnt Orange
- 253 Stone Blue
- 254 Blue Grey
- 255 Medium Grey
- 256 Basalt Grey
- 246 Bright White Matt
- 247 Dark Beige Matt
- 242 Light Grey Matt
- 243 Concrete

## Formia Bathtub

Matt look, natural feel.

The new rectangular Formia tub is available in the new DUSCHOLUX Bestone material as a free-standing and wall version. The matt appearance and the central drain in chrome make Formia simple and modern.

### Features

- Rectangular bathtub made of DUSCHOLUX Bestone
- Product colour White
- Free-standing or with wall connection
- Matt look and natural feel
- Spacious interior with water depth of up to 40 cm
- Duo form: can accommodate two bathers
- Central drain with cover in chrome

### 01

Formia is our new and modern rectangular bathtub measuring 1700 x 750 x 600 mm (Formia Free) and 1700 x 850 x 600 mm (Formia Wall).

### 02

The matt appearance is what makes this tub so special – and the central drain with a moulded, flush overflow is very convenient.

## Prime-line Bathtub

Bathing without limits.

With Prime-line, DUSCHOLUX offers 13 different bathtubs in a whole range of different shapes and sizes – from classical rectangular versions through round baths and corner baths and on to asymmetrical solutions. Their common characteristics: Convex curved interior walls, a distinctive edge width and particularly spacious reclining areas for superb comfort in use.

### Prime-line features

- Bathtub made of sanitary acrylic
- Product colour White
- Striking design with high degree of reclining comfort
- Available in many sizes and shapes

### Piccolo features

- Small-space bathtub made of sanitary acrylic
- Product colour White
- Modern, fresh design
- Optimal use of space

### 01

DUSCHOLUX still places value on having a wide range of standard bathtubs with different shapes and installation options.

### 02

The seamless transition between the tub and the panelling is particularly appealing. With the Prime-Line Free, precisely formed apron is also available in Black or Ruby Red.

### 03

Three different lengths to make optimum use of the available space, ergonomically formed, surprisingly large reclining surfaces – that is the concept behind small Piccolo bathtubs.

Our new website lets you really immerse yourself in the DUSCHOLUX product worlds on any device. The simplified navigation with a practical search function helps you to find the information you need quickly and easily. Downloads and specific content for your individual needs help you with planning – in trade and crafts. Whether you're an architect, planner or private customer, with [www.duscholux.com](http://www.duscholux.com) you're on the right side.

# DUSCHOLUX online

# Configurator

Here's how planning can be fun and make sense.

The configurator is the key feature of our new website: with intuitive user guidance, it makes it fun for you to find your ideal customised bathroom solution. It's quite simple: enter your structural requirements, followed by the type of shower or PanElla wall panelling you want. The program processes your data and immediately provides you with the most suitable solution – realistically displayed and with a price quotation for the selected model. There's no clearer way to plan your shower solution.

**01**

Surprising effects with our PanElla wall panelling: experience how colours can change the effect of a room and customise your shower area.

**02**

Variable and realistic down to the last detail: the configurator also takes into account whether your shower enclosure should stand on a shower floor or a tiled floor.

01

02

Our configurator undergoes continuous development for your benefit. You now also have the option of uploading your own images. The required section can be selected intuitively during this process and viewed as PanElla wall panelling in the preview. You then have the option of downloading the file as a high-resolution JPG or PDF.

## Product registration.

Register your product and reap the rewards.

Each of our DUSCHOLUX products is assigned a unique guarantee number. You can find this under the DUSCHOLUX clip on your product in blue or black type. Use the guarantee number to register your product on our website and receive a small welcome gift in the post. By registering your product, you will also be able to order any spare parts you require at a later time. And with your guarantee number, you will find matching products on the DUSCHOLUX online shop.

### 01

A guarantee clip is affixed to every DUSCHOLUX shower enclosure. You will find the individual guarantee number of your product under the cap.
